GENERAL INFORMATION

CNI Crop KickerTM is a complete plant food containing NPK and micronutrients and is designed for foliar application on most crops. It is recommended for use as a readily available source of nutrients to supplement a conventional fertility program – potentially enhancing yield and/or quality.

CNI Crop KickerTM applied in a spray program of multiple applications provides a supply of essential nutrients when plant food needs are highest – at flowering and/or fruiting stages or under stress conditions. Adequate plant nutrition at or near the time it is needed most, assures that the optimum genetic potential will be reached.

DIRECTIONS FOR USE

This product may be applied by ground or aerial application. Use sufficient water for thorough and uniform coverage of foliage or soil. Foliar application is recommended when fast deficiency correction is desired. For best results use a non-ionic surfactant.

Mixing Instructions: Always check compatibility before mixing. Use only the following sequence: 1 Water; 2 This Product 3 Pesticides

RECOMMENDED RATES

Cotton: Apply 1 qt./acre early bloom. Increase to 2-4 qts/acre for mid and late season applications.

Peanuts: Apply 1qt/acre early season. Increase to 2-4 qts/acre by first bloom and repeat in 10-14 days.

Soybeans: Apply 2-4 qts/acre starting at first bloom. Repeat as needed through pod development.

Vegetables: Apply 1-4 qts/acre depending on size of plants with first application just prior to blooming. Continue throughout the season at 7-10 day intervals.
