GENERAL INFORMATION

CHEM-POLY 18-4-6 PLUS is a liquid foliar fertilizer designed for application on all crops requiring supplemental N,P, and K during the growing season. A portion of the nitrogen is in a slow release form providing more efficient nitrogen utilization. In addition, it contains Humic Acid to aid in the uptake of nutrients.

CHEM-POLY 18-4-6 PLUS is recommended as a carrier for pesticides. The slow release nitrogen prolongs the wetting of leaf surfaces for greater penetration and less loss from crystallizing on leaf surfaces as with liquid urea products.

DIRECTIONS FOR USE

This product may be applied by ground or aerial application. Use sufficient water for thorough and uniform coverage of foliage or soil. Foliar application is recommended when fast correction is desired.

Mixing Instructions: Always check compatibility before mixing. Use only the following sequence: 1 Water, 2 This Product, 3 Pesticides

RECOMMENDED RATES

Rates and timing of applications are dependent on local conditions and should always be made as a result of soil and/or plant tissue analysis. Local climatic conditions, infestations and other factors affect the performance of any pesticide or nutritional spray. Therefore, consult your local chemical company representative or agricultural extension agent for specific use information in your area.

WHAT TO DO IN CASE OF CONTACT
